NRS received the Award for Excellent Business Entities Working on Modal Shift

NRS CORPORATION was awarded in the “Effective Utilization Category” at the Awards for Excellent Business Entities Working on Modal Shift Ceremony 2022 organized by the Japan Association of Logistics and Transport on December 6, 2022.

[Effective Utilization Category]

Despite the difficulties in coordinating vehicle dispatch due to delays and cancellations caused by summer typhoons and winter cyclones when shifting from long-distance truck transport to sea transport, NRS was rewarded for achieving a 72% annual reduction in CO2 emissions and reducing the burden on truck drivers, without changing lead times.

NRS CORPORATION Executive Director Koichi Yasuhiro)

The Award for Excellent Business Entities Working on Modal Shift is a program that aims to encourage logistics companies to take voluntary initiatives and raise awareness in society regarding the promotion of modal shift.

NRS has been awarded the Excellent Business Entities Working on Modal Shift for eight consecutive years, and this is the first time for the company to be awarded in the “Effective Utilization Category”.

The NRS GROUP will continue to promote modal shift and other environmentally friendly business activities to contribute to the realization of a sustainable society.
