## NRS GROUP Safety Convention was Held

On May 20th, NRS GROUP held the "2023 Safety Convention for Bulk Logistics Division and Container Division".

### 1. Purpose of the Safety Convention

NRS GROUP, a company handling hazardous materials, considers safety as the foundation of its business and a responsibility towards society. The Safety Convention is held annually with the purpose of maintaining and improving safety and high-quality, as well as providing safety education.

### 2. Overview

In the 2023 Safety Convention, eight offices from the Bulk Logistics division and three offices from the Container division presented their accident prevention measures and safety initiatives. By replicating past accidents and sharing the corresponding preventive measures, the aim is to thoroughly prevent the recurrence of similar incidents. Due to the constraints imposed by the COVID-19 pandemic, it became challenging to gather a large number of people for outdoor demonstration. However, to ensure that safety activities continue without interruption, the convention has been conducted in a presentation format for the past three years.

Date May 20<sup>th</sup>
