Hosting an Internal Lecture to Support Children's Education

NRS CORPORATION has been implementing a matching donation program, where it matches employee contributions with an equal amount from the company. Since 2021, we have also expanded our support to the certified NPO Katariba, which supports disadvantaged teenagers.

On September 29th, we had the privilege of hosting Ms. Yukako Mikayama and Ms. Saki Amano from the Public Relations and Fundraising Department of Katariba as guest speakers. NRS GROUP employees participated online and had the opportunity to hear directly about Katariba's activities, deepening their understanding through a question-and-answer session regarding Katariba's initiatives and support for children's education.

We will continue to engage in a wide range of social contribution activities, including support for children's education.
