### NRS's Collaboration in Children's Magazine

NRS CORPORATION cooperated with Mainichi Shimbun Publishing Co., Ltd. in the production of "News ga wakaru special edition: Butsuryu ga wakaru." This publication is a special edition spin-off of the monthly magazine "News ga wakaru," tailored for elementary and junior high school students. It aims to make the complex world of logistics understandable and enjoyable through engaging explanations complemented by photographs and illustrations.

Covering topics such as "logistics" and "dangerous goods," the content is designed to appeal to a wide range of ages, from students to adults. Available for purchase at bookstores nationwide and online, we encourage everyone to pick up a copy and explore the fascinating world of logistics.
