### **Announcement Regarding Unauthorized Access to Our Server**

We have confirmed that unauthorized access was made to our company's server.

We are currently working diligently to investigate the cause and assess the extent of the damage with the assistance of external experts. While it may take some time to fully understand the impact, we would like to provide the following update on the situation as of now.

We sincerely apologize for the concern and inconvenience this may cause to our customers and all other stakeholders.

#### **1. Background**

On May 3, 2025, we confirmed that our company's server had been accessed without authorization by a third party. Upon discovery of the incident, we immediately took emergency measures such as disconnecting the affected network to prevent further damage. We then began an investigation, with support from external experts, to determine the entry point of the attack and to identify its cause and scope.

#### **2. Current Status and Future Measures**

We are currently striving to gain a full understanding of the extent of the damage and are working on restoring the affected systems.

We have also reported and consulted with the relevant authorities, including the police and the Personal Information Protection Commission, and are taking appropriate measures

We will provide further updates as soon as more details become available.
