NRS's Collaboration in Children's Magazine

NRS CORPORATION cooperated with Chiiki Shimbun Publishing Co., Ltd. in the production of "*Hakken Tanken Chibaken, Waku-waku Oshigoto Shirabetai* (Exciting Job Hunt in Chiba—Kids' Discovery Team) 2025 Elementary School Edition." This publication is a supplementary educational material for career education aimed at elementary school students. The Ichihara City edition focuses on companies active in the region, offering an engaging and easy-to-understand introduction to their work through photos and illustrations.

Our company is pleased to introduce the work conducted at the Chiba Logistics Center, located in Ichihara City. This initiative aims to help children gain a closer understanding of the vital role logistics plays and the efforts involved on-site.

Through this publication, we hope to inspire children's interest in logistics and help them better understand its mechanisms and significance.

We will continue to actively promote social contribution initiatives that support the healthy growth of the next generation and help realize a prosperous future for all children.
