### NRS's Collaboration in Children's Magazine (Osaka City version)

NRS CORPORATION cooperated with Kansai Pado Corporation (Sponsored by: Osaka City Board of Education, Osaka Chamber of Commerce and Industry) in the production of "A work notebook for elementary school students" and "A work book for Junior high school students." (Exciting Job Hunt in Osaka—Kids' Discovery Team) in 2026. This publication is a supplementary educational material for career education aimed at elementary school and junior high school students. Our company has several locations in Osaka Prefecture, including the "Osaka Sales Department," "Osaka Logistics Center," "Takaishi Chemport," and "Osaka Bulk Logistics Office." This time, we will be introducing the work at the "Osaka Logistics Center." This initiative aims to help children gain a closer understanding of the vital role logistics plays and the efforts involved on-site.

Through this publication, we hope to inspire children's interest in logistics and help them better understand its mechanisms and significance.

We will continue to actively promote social contribution initiatives that support the healthy growth of the next generation and help realize a prosperous future for all children.
